

BYOD Instructions

Please follow these instructions to connect your personally owned device to the Madison Public Schools wireless network.

Please Note that these directions may vary slightly depending on your device and operating system.

1. Open your device's wireless network connections window.
2. Find the MPS_BYOD network in the list and click on it.
3. Click connect.
4. Open your Web Browser.
5. You will now be presented with a login screen. (Note: Some browsers may require you to navigate to a webpage before the sign in screen will appear.)
6. Enter your district username and password and click Login.
7. You will now be presented with an Acceptable Use Policy. Please check the "Accept Terms and Conditions" checkbox at the bottom of the page.
8. You are now connected to the wireless network.

A few notes:

1. If you are using anything other than a windows computer, you will be asked to sign into the iPrism filter when you first go to a webpage. Use your network username and password to sign into the filter.
2. You will have access to your network resources, however we are unable to push shortcuts or drive mappings to your personal devices. The district will be providing training on how to navigate to you network resources in the near future.
